<b>15</b>	15	3a. DisplayStats function
<b>5</b>	5	3b. AdjustStats function
<b>10</b>	10	Additional Refactoring for extra credit
<b>90</b>	<b>80 pts</b>	

## Comments

Nice additional stats allocation!  
My show comes on at 6, bro – haha  
“Harlems” full of women?

Could have reused “showStats” function within the “DisplayRoundMenu” function.

Remember to keep your naming conventions consistent (ie, capitalization and such).

Good work!
